

635 Dual Input Differential Manometer

Features

Differential input with +/- 5 PSI range. Seven units of measure (mbar, kPa, PSI, mmHg, inHg, mH2O, inH2O). Display - 4 digit dual line with backlight Smooth - Stabilizes display when measuring fluctuating pressures Data Hold - Freezes reading on display. Min / Max - Records Min/Max readings Auto Off - Conserve battery power.

Specifications

Measurement Range: +/- 5 psi Display: 4 Digit Dual line LCD with backlight Input Type: Dual Differential (compression fittings) Resolution (max): 0.001 psi Accuracy: +/-(0.1% Full scale + 3 digits) Functions: One Touch Zero, Data Hold, Back-light, Unit Selection, Smoothing, Auto power Off, Min / Max Record,

Resolution Selection

Units of Measure: 7 Units (mbar, kPa, PSI, mmHg, inHg, mH2O, inH2O) Battery Type: 9V alkaline Battery Life: 80hours (Typical) Auto Power Off: 30 minutes

Standard Accessories (Included): 9V alkaline battery (A009A), replacement tubing (A601
